Harvard common data set

Lehigh University common data set

APPLYING TO MANY UNIVERSITIES

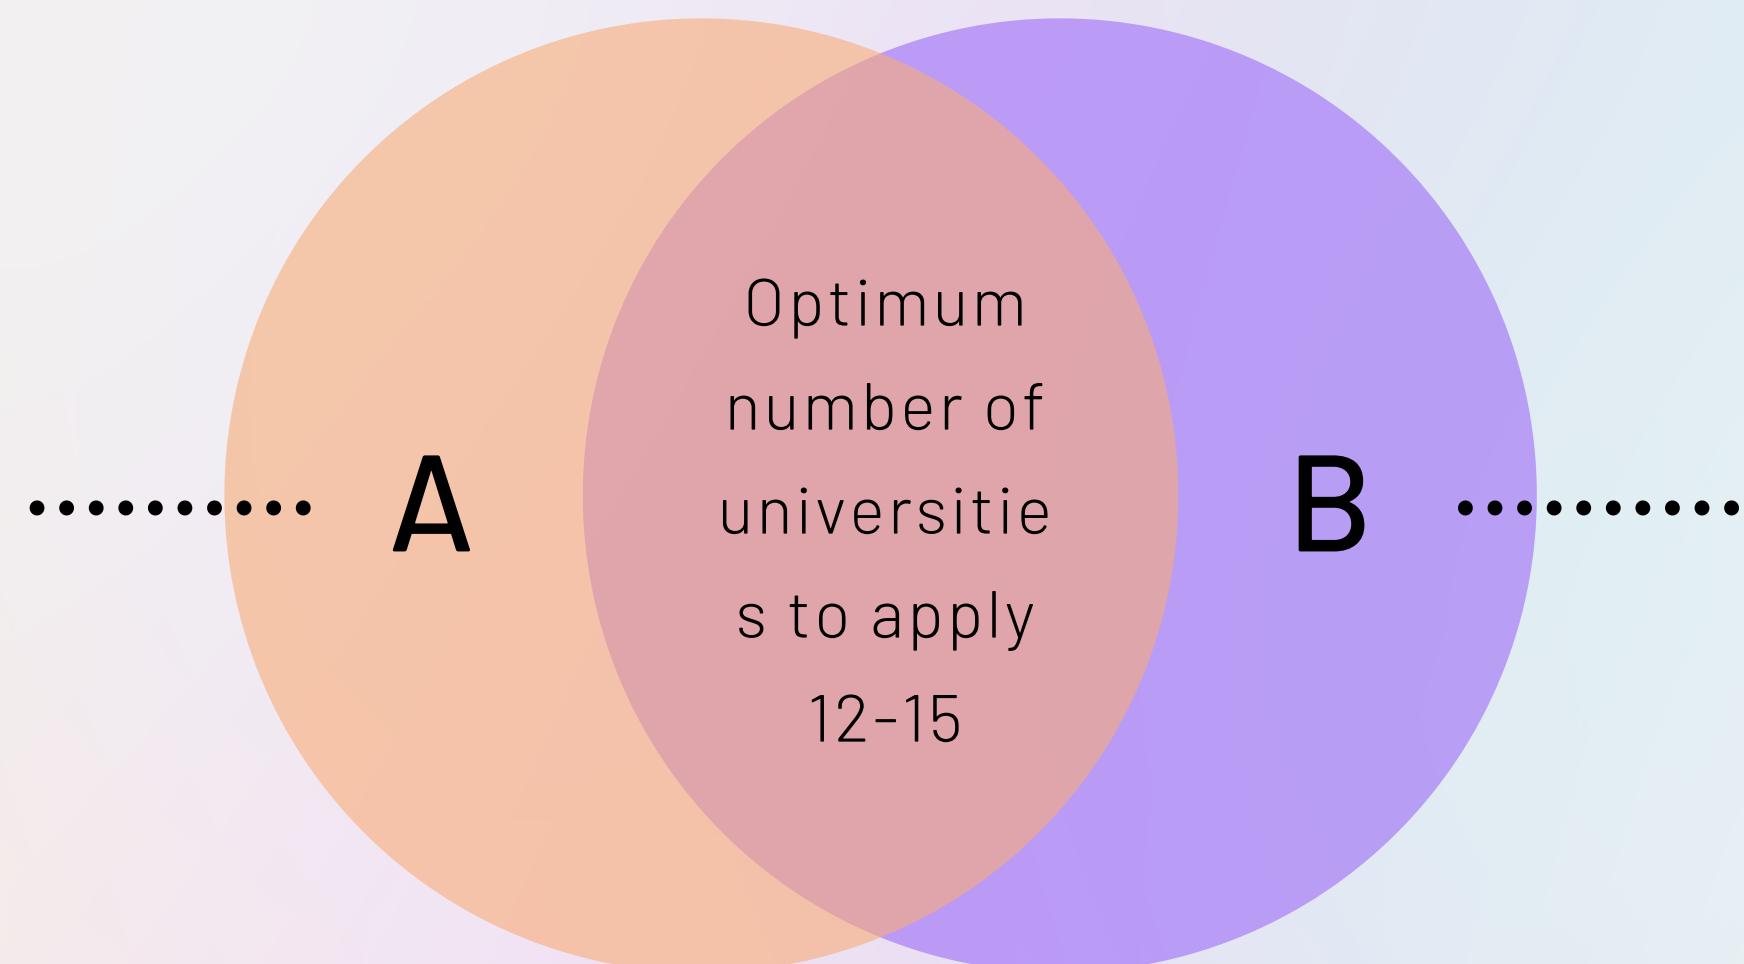

APPLYING TO MANY UNIVERSITIES

- minimize the risk
- applications cost money and time
- **depends** on the application deadline
- may lose control/balance
- can be less worried after sending applications

APPLYING TO FEW UNIVERSITIES

APPLYING TO FEW UNIVERSITIES

- enough time to focus on the application
- less money and time wasted if one of the schools gives you a good offer
- could be left without any offer
- you will not know your full potential

Making your college list

depending on their acceptance rate

Less than 30%
acceptance rate

REACH

30-70% acceptance
rate

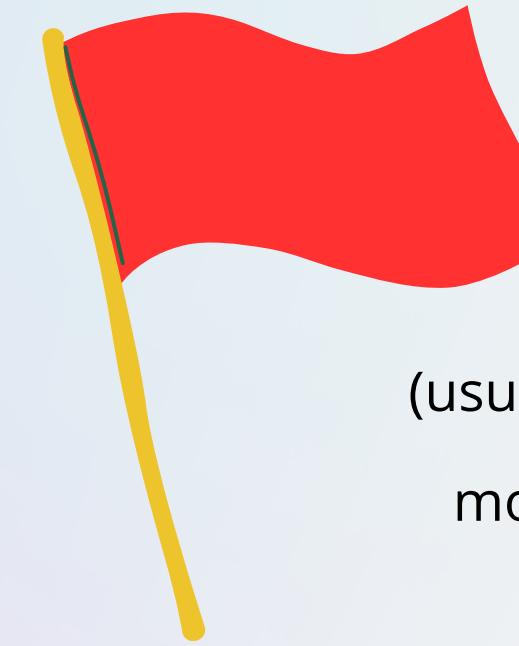

MATCH

little ivies/hidden ivies

More than 70%
acceptance rate

SAFETY

(usually) do not have enough
money to fully cover your
expenses
